

FBIS-1233/85

13 AUG 1985

MEMORANDUM FOR: Director of Information Technology

FROM:

[REDACTED]

Director, Foreign Broadcast Information Service

STAT

SUBJECT: Requirement for Dedicated Electronic Dissemination
Circuit for the Automated FBIS System (AFS).

1. FBIS is in the initial phases of an office-wide modernization program which will include equipment upgrades and operational enhancements for our overseas and domestic operations. As a part of this new configuration, FBIS requests that OIT, specifically Headquarters Facilities Division (HFD), provide a dedicated electronic dissemination circuit from Agency Headquarters to FBIS Headquarters, in early FY88. This request is driven by a requirement to replace the traditional paper transfer of cable traffic between our two facilities with an electronic communications link.

2. Should you or anyone on your staff have any questions at any time, feel free to contact [REDACTED]
